EDITORIAL

The department of mathematics, Chiang Mai University and The Mathematical Association of Thailand under Patronage of His Majesty the King hosted the 22nd ANNUAL MEETING IN MATHEMATICS (AMM 2017). Scope: Scopes of the AMM 2017 include, but are not limited to :

1. Analysis, Topology and their Applications

2. Algebra, Lie Theory and Number Theory

3. Algebraic Geometry, Complex Geometry and Geometry

4. Combinatorics and Graph Theory

5. Control Stability and Optimization

6. Differential equations, Dynamical Systems and their Applications

7. Mathematics Education and History of Mathematics

8. Mathematics Modeling

9. Numerical Analysis and Scientific Computing /Mathematics in Science and Technology

10. Probability and Statistics

11. Other Mathematical Aspects.

This national conference is one of the largest conference in Mathematics in Thailand. There were over 200 contributed research papers and more than 700 mathematicians participated in this event. Outstanding mathematics research papers are selected to be published in the Thai Journal of Mathematics.

Editor-in-Chief
Suthep Suantai, Chiang Mai University, Thailand
Associate Editor-in-Chief: Special Issue AMM2017
Thanasak Mouktonglang, Chiang Mai University, Thailand
